

Parent Survey

on the Development of the School

“Nothing is so good that it cannot be made better,”
the saying goes. This also applies to our school.

Dear parents,

Your opinion is very important to us. With this anonymous and voluntary questionnaire we would like to offer you the opportunity to give us feedback on our work.

To keep things simple, we have used “he” throughout the text, but of course “she” is also included within this use of the pronoun.

This survey shall be analysed by us and shall go towards the development and optimisation of the school.

Please post the questionnaire into the designated box in the entrance by ...

Thank you very much for your time and your support of the optimisation of our school.
